

E-BROCHURE

Sud

An excellent example of a 30 metre semi-displacement Sanlorenzo, SUD mixes tranquil, light-infused interior styling with incredible deck spaces and a useful cruising range.

SUD's spacious decks allow her guests so many wonderful options, from joyous parties to private moments. A large dining area on the aft deck will easily cater for eight guests, while the foredeck lounge offers a quiet retreat. The sophisticated flybridge is party central, with sunbeds, a dining area, barbecue and wet bar.

Following an extensive refit, SUD is beautifully presented with a fresh new look for the interior. The neutral, Zen-like salon is a supremely comfortable and relaxing place to entertain, with its large sofas and windows. The master cabin lies on the main deck, with a spacious VIP on the lower deck, an excellent and very private layout. A double cabin and a twin cabin can also be found on the lower deck, allowing her to sleep up to eight guests in four cabins.
